## / EXPERIENCE

### >> Web App Project Yooviz

Wild Code School | June - July 2020

I built the first version of this web app that makes the sightseeing a very special experience. The user can access to many streaming videos providing as a guided tour about points of interest in a place (monument, church, fountain, square, museum, etc.)

> React, MySQL, Postman, Express, Leaflet, JWT

### >> Hackathon with Doctolib "Remote Healthcare"

Wild Code School | June (24-26) 2020

We created an instant messaging to improve the relationship between patient and practitioner, at the practitioner's initiative. The purpose ? Quickly keeping in touch and getting news from his patients via a chat.

> 3rd place winner, socket.io

### >> Web App Project V'Lille App

Wild Code School | April 2020

A web app with map and research's functionalities of V'Lille stations (Bikes available for rent in Lille) from a geolocalisation or an address

> Git, Github, Leaflet, Material Ui, Méthode Scrum, React

### >> Hackathon

Wild Code School | April (29-30) 2020

Hackathon full remote with a subject: "travel from your sofa"  
> CSS, React, Git, Github, API Windy

### >> Website project YellowGreen

Wild Code School | March 2020

Single Page Application for a marketing agency  
> CSS, HTML, Git, Github, Javascript and DOM manipulation, Media queries

### >> Communication officer

Bibliothèque Universitaire Vauban | 2015-2019

### >> Librarian

Bibliothèque Universitaire Vauban | 2010-2015

## / EDUCATION
